Of Popular Dances**

The Keystone Boosters have completed preparations for their semi-weekly dances, which were so popular last winter. The first of the series will be held next Saturday night at the Boosters' hall on Harbor boulevard, south of the Julian refinery site. "A good floor, a good orchestra and a jolly crowd" insure a good time.

A FAIR EXCHANGE

John Willis of Glasgow, Mont., was on the reception committee appointed to receive Theodore Roosevelt at Helena, Mont., in the spring of 1911. He had served frequently as a guide for Roosevelt on his hunting trips. When the train pulled into the Helena station Roosevelt at once recognized his old-time friend—Willis, of course, first and foremost, and at once shook hands with him.

NOT HIS FAULT

Two workmen were wheeling dirt in wheelbarrows. The boss went up to one of them and said: "Look here, you! Your mate's wheeling four wheelbarrow loads to you one!" "Well," snarled the workman, "don't blame me. I've told him about it half a dozen times already."

Report Shows Millionaire
Backs Water Power
Proposal Strong

Statements of the California State Water and Power League sworn to by Rudolph Spreckels, treasurer, and filed with the secretary of state in accordance with the law enacted by the last legislature, definitely stamp the \$500,000,000 Water and Power Act as being a proposition of Spreckels and the labor unions of San Francisco with little interest evidenced in the southern or central portions of the state.

Of the total contributions of \$28,952.21 made during the six months period to Sept. 20 for the purpose of circulating the initiative petition, paying salaries and expenses of publicity agents, managers, solicitors and the like, Rudolph Spreckels' payment of \$17,976.96, a contribution of \$4,000 from William Kent, contributions of \$1,000 from San Francisco labor unions, one labor union in Washington, D. C., and a number of smaller subscriptions constituted 81 per cent of the total amount collected. The remaining 19 per cent was secured from Southern California in four subscriptions, the largest being Dr. John R. Haynes, Los Angeles, \$4,000, William Thum \$1,500 and two other subscriptions of \$25 each.

The sworn statement of contributions received shows that the four men mentioned as actively promoting this measure contributed 95 per cent of the funds, and only the remaining 5 per cent was secured from the general public. The sworn statement of disbursements includes the payment to Franklin Hitchborn, publicity agent, of \$3,376.94 for services over a period of six months consisting generally of mailing out publicity sheets attacking salaries paid officers of the light and power companies of the state for their services in conducting their own business. Solicitors, agents, lecturers and other expenses totaled the sum of \$16,214.47. Signatures were secured to the initiative petitions by professional canvassers for \$13,933.21 and the remaining expenses for rent, telegrams and miscellaneous items amounted to \$643.45.

Opponents of the act assert it is becoming more apparent that this proposed measure is the creation of Northern California where it has strong labor union backing and where, according to official records, there is vastly more undeveloped water power than in Southern California.

With four men contributing 95 per cent of the campaign funds, it would be fair to assume that these four men would expect to occupy four of the seats of the five commissioners who would administer and control the expenditure of the \$500,000,000 which they are asking the people by this act to vote in state bonds, opponents of the act point out.

"Torrance Stands on Tip-toes Looking Into Eye-balls of Prosperity!"—says Coles Store.

Torrance's On the Map

Hey, there, mister, lift your head—
Straighten out that brow—
What was that you just now said?
Life's of no use now?
You've drained the bitter cup?
Straighten up, you sapp—
I know what will cheer you up!
TORRANCE'S ON THE MAP!

There the sky is ever clear,
There the air's like wine,
There the days are songs of cheer—
And the nights—divine!
There you'll lay your burning brow
In Nature's cooling lap—
I know just what you want now!
TORRANCE'S ON THE MAP!

Banish brooding from your creed,
If you'll enter there;
Sorrow's death has been decreed
In that land so fair.
There no one leads a troubled life,
And no one gives a rap—
I know what will end your strife!
TORRANCE'S ON THE MAP!

Would you be made young once more?
Would you glow with health?
Would you gather in a store
Of life's most cherished—
wealth?
Would you know the wealth of joy?
Joy without mishap?
God has seen to that, my boy!
TORRANCE'S ON THE MAP!

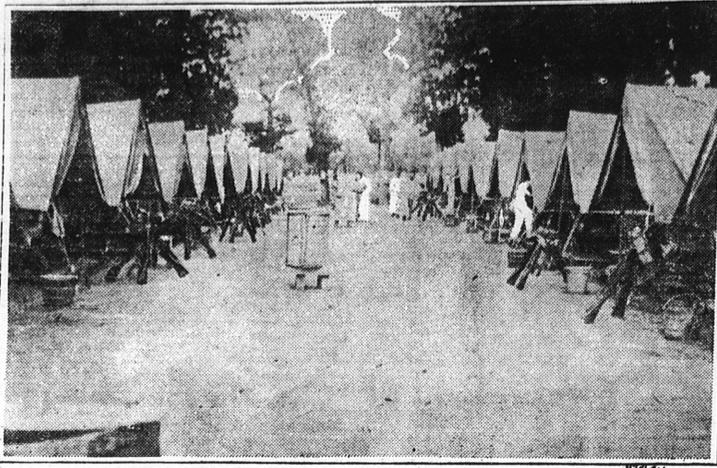

Would you be made young once more?

Would you gather in a store
Of life's most cherished—
